

Checklist for warehouse robotization

Yes/No

- | | |
|--|---|
| 1. Is your e-commerce, omnichannel, wholesale and retail replenishment operation fully equipped for rapid order growth in the short term? | <input type="checkbox"/> <input type="checkbox"/> |
| 2. In today's tight labour market, can you still find enough suitable employees for your warehouse operation? | <input type="checkbox"/> <input type="checkbox"/> |
| 3. Do you have sufficient time and resources to provide new warehouse operatives with comprehensive onboarding and training? | <input type="checkbox"/> <input type="checkbox"/> |
| 4. Is your warehouse able to withstand the rising costs of labour and facilities management? | <input type="checkbox"/> <input type="checkbox"/> |
| 5. Can your company keep pace with the 'Amazon effect' to offer customers same-day delivery? | <input type="checkbox"/> <input type="checkbox"/> |
| 6. Can your warehouse operation handle high volume peaks, such as Black Friday or Christmas, based on the existing staffing level? | <input type="checkbox"/> <input type="checkbox"/> |
| 7. Do your supervisors have adequate real-time access to what's currently happening in the warehouse and what's in the pipeline? | <input type="checkbox"/> <input type="checkbox"/> |
| 8. Are your warehouse managers getting enough information about their daily performance, including historical comparisons and overviews across multiple locations? | <input type="checkbox"/> <input type="checkbox"/> |
| 9. Is it possible to interrupt day-to-day warehouse processes for lengthy periods to add or implement new workflows? | <input type="checkbox"/> <input type="checkbox"/> |
| 10. If you are thinking about supply chain automation, have you reserved sufficient budget to cover high upfront investments in capital goods? | <input type="checkbox"/> <input type="checkbox"/> |

RESULTS

0-3 questions answered with 'No':

Your company has already made good progress in terms of futureproofing your warehouse operation. Your warehouse mechanization and robotization is built on a solid foundation. It is now important to keep monitoring the latest developments and to deploy customized solutions for the finishing touch.

4-6 questions answered with 'No':

Your company has reached a crossroads and is ready to benefit from mechanization and robotization in order to operate faster, more flexibly and more effectively. Gaining internal support for this starts with building awareness of the possibilities. Do not hesitate to bring in external knowledge and experience to help you.

7-10 questions answered with 'No':

Your company does not yet have the processes in place for far-reaching mechanization and robotization. This is affecting your performance and putting your operational continuity at risk, which is making you vulnerable. Evaluate your areas for improvement and invest in a quick analysis.
