3 Billion Picks

The Road to 3 Billion Picks

Locus Robotics has now picked more than **3 billion items worldwide!**

- The **first billion picks** took **7 years**.
- The **second billion picks** took just over **11 months**.
- The **third billion picks** took just **33 weeks!**

\$250 Billion in Product Value

Items picked have a value of over \$250 billion, showcasing the impact of Locus Robotics' technology, efficiency, and platform robustness across the supply chain industry.

CUSTOMER Savings

Locus has saved customers an estimated **\$300M to \$400M** in fulfillment costs, highlighting the proven efficiency and cost-effectiveness of the Locus solution.

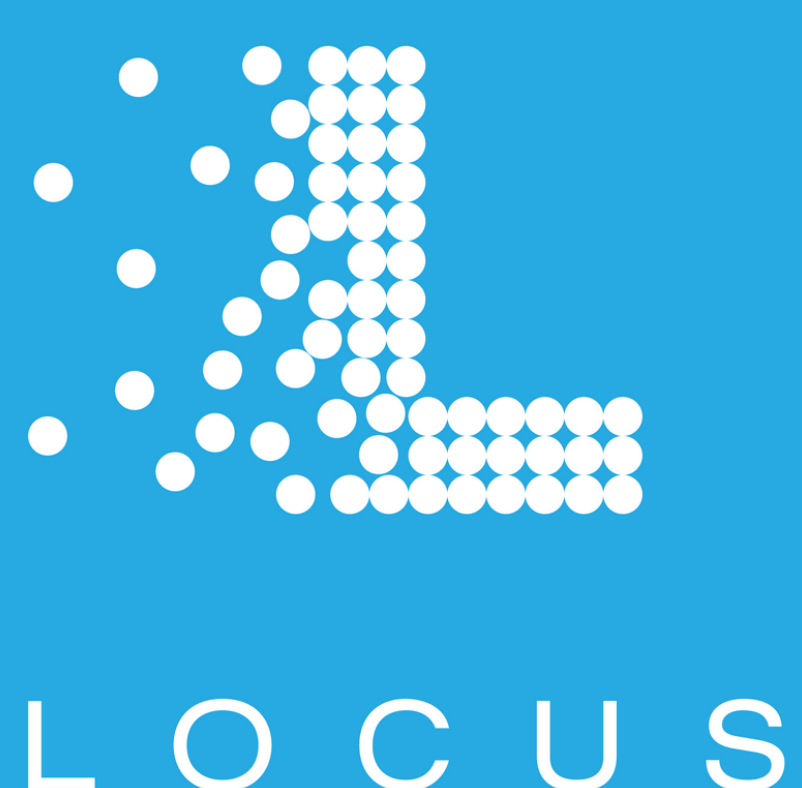

LocusBots have driven more than **40 million miles**, significantly reducing unproductive walking by warehouse workers and freeing them to focus on more value-added tasks.

MILLIONS OF Steps Saved

INCREASED Pick Efficiency

Locus is now picking **6 to 7 million units per day**, a remarkable 500% increase, demonstrating the scalability and effectiveness of LocusBots in warehouse operations.

Move What Matters

Locus **Moves What Matters** for more than **130 customers in over 300 facilities in 19 countries**. Locus leads the way with proven and flexible AI-driven warehouse automation.
